

Natal Report for Brianna WILSON

Jun 20, 1990, 4:15:00 PDT Santa Monica, CA (34N01, 118W29)

Introduction

Your natal horoscope, or birth chart, is a snapshot of the heavens at the moment you were born. It shows what the sky actually looked like at the time and place of your birth. Astrology in modern times has renewed the ancient discovery that the symbolism of the planets that surrounded you at birth describes your character and personality. Planets that were directly overhead at the time and place of your birth are most important, and would appear at the very top of the chart or the Midheaven. Planets that were just rising above the horizon in the East at the time of your birth would appear near the horizontal line at the left hand side of the chart or the Ascendant. If the Sun appears in the top half of the chart, then you were born during daylight hours and have a more outer directed personality. All of these features reflect the factors at play in the Universe at the moment of your birth and are significant indications of the basic qualities and tendencies that continue to make up your personality.

Each planet's relative position in the sky and significant angles that it makes to the other planets, or aspects, are examined in this report. Please keep in mind that you are not limited by these descriptions. Your natal horoscope does not prescribe your fate. The stars incline, they do not compel. Your birth chart shows potentials that you can either struggle to fulfill or deny. The choice is yours. Beneficial aspects, or planetary positions, are areas of life in which you show natural talent and achieve easy success. Challenging aspects, or planetary positions, can become your greatest asset if you can learn to be aware of how that dynamic plays out in your life and the world at large. The strongest and most important features of your chart are described first. For definitions of astrological terms, please refer to the glossary at the end of this report.

Chart Patterns

Funnel, focal planet Pluto

You have the planetary pattern type called the 'funnel' shape (also known as the 'bucket'). All your planets form a group, with the exception of the focal point, one planet or two planets in conjunction (bucket handle). Your energies tend to be channeled through this focus. You will have abilities in the occupied area of the chart, and goals in the direction of the focal point. The focal planet(s) symbolizes how your energies will be expressed, and where you seek to have your needs met or achieve your purpose.

Pluto in the Sixth House (or sign) gives you an intense desire to be of service in the world. This desire can take the form of a compulsion to help others in a way that may not truly be appreciated by the intended beneficiaries. You are slightly obsessed with finding the purity inherent in human activity, and may well be a champion of the environmental movement, or exert yourself strenuously in your job or home setting. You may also become intensely concerned and perhaps even chronically worried over health issues, or you may be apt to stress over organizational detail where the intention is to purify the function of the particular activity,

but where attending to the details can become an end in itself. You may go through many profound changes of attitude in these areas, in order to learn how to be of actual service to yourself and others. Creative outlets for your passion might be found in the helping professions, or in working on your own issues in such a way as to regenerate your values and life direction. When you have transformed in these areas you can become a beacon for others to follow. By staying true to your own inner guidance system, you make it possible for others to also, and further the cause of a more self-aware and wisely functioning planetary society.

The following applies to your generation as a whole as well as to you personally

Pluto in Scorpio (or the eighth house) gives you a serious and willful personality, with an intense focus on personal transformation. You feel deeply, and may have an almost psychic awareness of the feelings of others. You have strong desires, and are single-minded about pursuing them. You may need to combat a tendency to manipulate others for your own purposes. You may also exhibit compulsive behavior around the issue of sexuality, or in insisting that you get your own way, and you benefit from loosening your grip. There is a tendency to project onto others the issues that you are called upon to deal with in yourself, in your own inner temple, and to seek to change your situation in the battlefield of sexual encounter rather than through the independent actions of your whole and entire self. You will likely go through many changes as the course of your life unfolds. The challenges that you meet are for the ultimate purpose of allowing you to see more deeply into your own inner motivation. You may become fascinated with occult studies as a way of tuning into a deeper reality than that of the surface. It benefits you to turn away from manipulating others and to learn to use your powerful presence to regenerate your own life, transforming self-centeredness into a more spiritual sense of personal power.

T-Square, focal planet Mars

Mars in the Eleventh House (or sign) gives a freedom loving, socially oriented and idealistic personality. You can be abrupt and eccentric in speech and action, and may have a tendency to jump to conclusions. You have your own way of looking at things, and are also stubborn in your outlook, so that it may be difficult to get you to change your opinions. You are enterprising and ambitious, with a future-oriented and scientific mentality. The unknown possibility excites you more than conventional activity, which you may consider slightly boring, and you therefore tend to invest your energies in the upcoming event not yet realized. You get along well with groups of people, but you may be less comfortable one on one. You may need to find a balance between too great a focus on personal issues, and on the other hand directing all your activities outside yourself, toward social and humanitarian goals.

Mars in Aries (or the first house) gives an independent and positive nature, and an outwardly directed and ambitious orientation. You possess great strength of character as well as an inordinate degree of self-assertion. You are a formidable adversary, tending to react aggressively when threatened. You are extremely courageous and enthusiastic, traits that will take you far in life, but you may need to work on a tendency of being quick to anger and you can behave impulsively at times. You may also cause trouble for yourself by being unwilling to give way and make concessions, especially if Mars is afflicted in your chart by challenging planetary aspects. It benefits you to learn the art of compromise. You can also benefit from cultivating patience and tolerance to offset your occasional short temper. You will gain in the long run when

you practice self-control and display a great degree of unselfishness in your dealings with others.

Yod, focal planet Mercury

You have a Yod planetary aspect pattern in your chart, also known as the 'finger of God'. This pattern consists of two different planets forming inconjunct aspects of 150° to a third, or focal, point. Usually there will be a marked emphasis on the area of life represented by this focal point, which may be one planet, or two or more in conjunction. You may have physical or psychological problems associated with the expression of the energies of the focal planet or planets, creating a subtle form of tension in your life. The key is adjustment. Your lesson is to transform the expression of these energies along more positive lines.

Mercury in Gemini gives a keen, alert and expressive mentality. You have great versatility, and can take up many different skills. You love variety in your life. You are constantly perceiving the world around you, and relaying your perceptions to your mind. You approach mental pursuits in an intellectual rather than a practical way, and tend to prefer breadth in these matters to depth. You speak rapidly and well, and enjoy conversation with many different types of people. You are restless and can be prone to anxiety. Beware of stress to your nerves. It is beneficial for you when you cultivate periods of inner stillness.

Mercury in the First House represents a strong mental connection between your inner awareness and the outer world. You bring an acute and intuitive perception to bear on all that you encounter, and almost nothing escapes your attention. You may be extremely sensitive to visual or auditory sense impressions. You are also likely to be very curious about things you encounter. You are constantly asking questions to satisfy your restless quest for more and more information. You are in fact a perfect channel for ideas and information, as you have a natural ability to communicate your ideas to others. It is important for you to realize that you are not merely a passive observer. As you ask questions about the world, you learn about yourself; and as your attitudes change inside, your perceptions of the world will also change.

You can be quite creative. You may be restless, shy, or moody. You may prefer to work alone in secluded and isolated ways. You can be self-sacrificing if you become overly emotionally involved with those around you. You can be of service to those who are not as in tune and aware of themselves. You need to take time alone and isolate yourself to recharge your emotional energy.

Uranus in Capricorn (7° Cap 58'R)
Uranus in the Eighth House
Leading planet of planetary pattern

Uranus in the Eighth House (or sign) gives an individual who is willful and possesses great depth of passion. You have a keen intuition and immense power to transform yourself and your personal relationships as you evolve. You may be fascinated with sexuality, or issues of death and rebirth, and you can also be quite psychic. The search for depth connection with the divine in you and in others is intriguing and you may delve deeply into occult studies. You are likely to have an unconventional approach where sexual matters are concerned. You may also be challenged in interpersonal relationships. You may experience loss throughout your life due to the sudden departure or unexpected death of a loved one. Such trials can serve a deeper purpose in your life, since transformation is a necessary step for you in the area of intimacy. The application of will and the ability to look inside yourself for your own unique answers may bring about a better understanding of the deeper relations between self and other.

The following applies to your generation as a whole as well as to you personally

Uranus in Capricorn (or the tenth house) gives an ambitious and willful individual who is rebellious of authority and also somewhat hung up about it. With this placement you are a definite non-conformist. You have a forward thinking mentality, and will not be satisfied with existing stagnant political solutions. You have a strong imagination and are so sure of yourself that you often cannot be argued out of your opinion, which can be a trifle eccentric at times. You have the impulse toward prestige and authority, but may find yourself bored with conventional approaches to attain worldly success. You may go through many different jobs and careers. You may also come into conflict with others over what are perhaps merely ego-gratification issues. You do better when your motivation is to benefit society rather than for personal gain. Your challenge is to move from a knee-jerk reaction against established authority, toward establishing your own personal authority, in your own way, to make your vision available to the social matrix surrounding you.

Venus in Taurus (24° Tau 38')
Venus in the Twelfth House

Venus in Taurus gives an earthy and practical love nature, very ardent and nurturing. This is a powerful placement of Venus, and your emotions are strong and long-lasting. You are very loyal, and also apt to be a trifle possessive. You know what you want to get out of life, and can be quite stubborn about it. You are also very sensual, social and easy to get along with. Living in the material world comes naturally to you. You have good luck with finances, and would excel in professions such as lawyer, real estate broker, or loan officer. Gardening and personal or home décor are likely hobbies. You like living the good life, and you will always have an abiding sense of enjoyment from music and the arts.

Venus in the Twelfth House represents a deeply felt connection within you between artistic impulses, your values, and the spiritual or unworldly. You are naturally tuned to higher planes of reality, and do not connect well with the mundane everyday world all around you. You may find your happiness in situations that encircle you in, away from the madding crowd. You are likely to be poetical and musical, and also extremely sensitive to the energy of others, even psychic. You are always ready to take sides with the underdog and may be the only one to see the magic in a person nobody else is willing to understand. You are socially adept, and easy-going, perhaps too easy-going at times. You may expect to sacrifice yourself for any love interest that you have. Your relationships will likely be of a mystical and ethereal nature, bringing you closer not only to your love object, but also through them to the divine within. If you feel called to express yourself artistically, it will be in terms of the hidden imaginal world of your own inner process.

Saturn in Capricorn (23° Cap 44'R)
Saturn in the Ninth House

Saturn in the Ninth House (or sign) gives an educated and philosophically active mentality, with a deepening and a concentration, or a blockage, in the area of higher learning and expansion into new horizons. You are courageous in expressing your opinion, have a keen intuition and make a good teacher. Your early beliefs may be characterized by adhering too strictly to a dogmatic and rigid set of principles, but you grow into a more mature wisdom in your later years. You likely have a need for physical exercise. You make a good teacher, and may also feel a calling to work with the disadvantaged. While open and honest, and intent on expressing your point of view, you may also doubt yourself in this area, seeming indecisive or rebellious. Your goals are mental and spiritual, rather than material, and you may search for a new framework of moral or spiritual values, rather than adopt existing outworn belief systems. Your lesson is to eventually come to the realization that the true source of moral and ethical valuation lies within yourself.

Saturn in Capricorn (or the tenth house) gives an ambitious and clear-minded individual, with a strong sense of responsibility. You are persistent, careful and calculating, and have a deep urge for mastery and achievement. You are likely to place extreme importance on traditional values in reaching for the prize you seek, accomplishment in the eyes of the world. Like the mountain goat ascending you are cautious and rarely take chances, and may appear dutifully grim in your outlook. You may experience difficulties, limitations or delays in the achievement of your goals, but you usually achieve success in the end. You may have encountered problems in your early life with finding your own identity independent of parental figures, and you may now operate out

of a subconscious fear that if you don't conquer the world first, then it will conquer you instead. When you are at your best, you can transform your struggle from a personal drive for power in the world into a model for others wherein the social matrix surrounding you is enlightened by your actions.

Sun in Gemini (28° Gem 52' 27") **Sun in the Second House**

The Sun represents your will and purpose, your sense of vitality, and your evolving higher Self. In Gemini it is Mutable-Air, and rules the arms, the shoulders and the lungs. Your ruling planet is Mercury. Gemini is the sign associated with communication, logical thought processes (based on duality) and the conscious mind. Gemini people tend to be airy and intellectual, glib of tongue and curious about life and other people. You can experience two sides of things at the same time, and you may tend to be flighty. You move through life like a butterfly, engaging in many varied experiences to gain knowledge. You are witty and have a good sense of humor, and you are likely to be an excellent conversationalist. You make a good teacher. You can be nervous and high-strung, and may be mischievous. Unlike possessive Taurus, you tend toward liberty in relationship. You can be easily bored, but under the control of self-discipline you have tremendous intellectual and artistic possibilities.

The Sun in the Second House represents a concentration of the vital force to obtain sustenance and possess resources. Resources are security for you. You have a strong urge to identify those resources that create safety and comfort for yourself and those closest to you, and a strong sense of what you truly value. Your formidable will power attracts much of what you desire to you. Once you possess something it takes on a special significance for you. You tend to hold onto and value what you have, whether for aesthetic pleasure or monetary wealth. You also love beauty and symbols of beauty. You may perhaps seek to develop personal resources in order to discover your own sense of self-worth. You also may attract influential friends. It is important that you learn how to share your sense of values and valuables with others. You can serve as an example in choosing to demonstrate how to be resourceful and appreciative of what you have and others share with you.

Jupiter in Cancer (16° Can 58') **Jupiter in the Second House**

Jupiter in the Second House (or sign) gives you a deep appreciation of your home environment and the material side of your existence. You are likely to possess luxuries and the good things of life, which come to you without your even having to try very hard. You have the gift for making money. You are also likely to be very sensual in your appreciation of the finer things that life has to offer. You have an ease with the practicalities of life that many would envy. You are also likely to be fond of good food and your waistline may have a tendency to expand. You rarely take chances, and are so secure in your material well-being that you seem not to emphasize this factor, being more interested in personal and cultural values.

Jupiter in Cancer (or the fourth house) gives you a loving, kind and caring personality, very friendly and sociable, generous and high-minded. You have an instinct for nurturing others, and find enjoyment as well as opportunity in this type of tribal sharing. You have an inherent spirituality, which is thus displayed not in philosophy, but in acts of love and generous giving of

yourself. You work well with the public, and are likely to be popular with your entire circle, and tend to attract material rewards without seeming to try for them. You possess a natural sense of security based on what was perceived as a happy childhood. You have an inclination toward the poetical and mystical or the marvelous side of life.

Neptune in Capricorn (13° Cap 35'R) Neptune in the Eighth House

Neptune in the Eighth House (or sign) gives an individual with great personal magnetism. You have a subtle intuition and an unusually clear insight into the motivations of others. You also may unconsciously try to control other people, or act in somewhat unreliable ways. You have an ideal of self-sacrifice in partnership with others, and tend to give more than you receive, which can lead in the end to resentment on your part, or just disappearing. Otherworldly affairs may interest you more than everyday ones, and you may be drawn to psychic matters or occult studies. Your dreams are very important to you, and through them you may learn significant information. You are likely to possess an enjoyment of sensual pleasures or luxuries. You may also have some confusion regarding sexuality and with what you truly desire from relationships. You benefit from bringing greater clarity to your personal values, your relation to the material world and to other people.

The following applies to your generation as a whole as well as to you personally

Neptune in Capricorn (or the tenth house) gives a charming personality with an idealistic nature. You may achieve much in the helping professions, or as a spiritual leader. You may also have a musical career. You tend to give more than you receive in your employment, and possess an almost naïve idealism where your work is concerned. Your work must be spiritually satisfying or you will lose interest. You are apt to be susceptible to suggestion, and may suffer disappointment in other people coming through for you. You also have a tendency to avoid responsibility. There may have been difficulties or confusion in your early years, especially with regard to parental motivations. You also may idealize parental figures, and the image that you have of your parents may change and become less idealized as you mature. In general, you must learn to clarify your goals. You will not be content with an ordinary job, but must seek out some career that is a real calling. At your best you express the highest ideals of society and find true joy in your vocation.

Chiron in Cancer (16° Can 34') Chiron in the Second House

Chiron in the Second House (or sign) represents issues with one's vital force to attain sustenance and possess resources. With this placement of Chiron you are challenged by physical resources, or perhaps spiritual resources, because the physical often reflects the spiritual. You may be one who has seen everything taken away at one time or another, or you may have risen above challenging circumstances materially to a better economic standard than your upbringing conditioned you to expect. Either way, you may demonstrate a painful attitude toward material well-being. Perhaps you have a fear of possessions dominating your life. Where others are able to count on their resources, either materially, or physically, or within their own psyche, and trust that they will have whatever it is that they need, you always find yourself suspicious that it will not last. Even if what you have is more than adequate by some standards,

it seems somehow not enough to satisfy you. You may dream of giving everything up, and moving to the country. These feelings may also spill over into deep issues regarding your core values, that which defines you in terms of what you choose to support and give credence to in the world. You may feel at sea in this area, and not on stable ground, and perhaps be envious of other people who seem more sure of what they do and don't find attractive. These ambivalent feelings toward material possessions and your values may find their roots in experiences from early childhood, in which you were criticized or otherwise had painful experiences around what you wanted for yourself, independently from the expectations of your parents or other significant formative persons in your early life. Sometimes these issues are so painful that it is easier not to deal with them directly, and you may find that working with other people's material security becomes a focus of your professional life. In this way, you can work on your issues in safety, rather than confront potentially painful realizations buried in the depths of your psyche. But getting more in touch with these deep and partially repressed feelings is of ultimate importance for you, as your consciousness evolves. When you have confronted those parts of yourself that are painful and scary, and begun to integrate the feelings that you have buried away, you are more in charge of your own ship and the course you take through life, and are better able to help others with their issues as well.

The following applies to your generation as a whole as well as to you personally

Chiron in the Cancer (or the Fourth House) represents issues with the vital force of self-nurturing and taking care of those closest to yourself. With this placement you have a strong drive, even a compulsion, to be centered in home and family, but this desire does not easily find its fulfillment. There may have been painful episodes in connection with early family life; perhaps you had trouble getting settled down to enjoy the comfort that a safe and secure home brings to a child. As a result, you may be even more motivated to having this firm base of security in your adult life than others to whom it is second nature. You may alternate between over-identifying with your family or under-identifying with them, or you may find yourself constantly thwarted in finding this important level of security as you go through life. On a more symbolic level, you are also painfully challenged in finding your own center in a psychological sense. Because of the inherent insecurity of your inner world you may struggle to find yourself, and become easily influenced by others due to lacking your own clear sense of self. Without this base you are more easily unbalanced, and you may find that you move in many different directions emotionally, as the wind blows. You may long for a more secure and comfortable sense of who you are, independent from others' opinions, a place where you can truly be yourself. Part of the problem with connecting to your inner self and externally with home and family, is that the conflict you feel may be largely unconscious in nature, running on autonomously as a result of long-buried experiences too painful to recollect and consciously examine. You may have difficult times with issues regarding home and family as you go through life, until you can become more conscious of these influences, and less easily overtaken by them. There may be conflicts with your mother, or other primary parental figure, that need to be worked through, as you really begin to get in touch with your blocks and difficulties in these areas. Once you begin to nourish yourself and to provide your own parenting, rather than depending on the external world to provide comfort and security, you can come around to being a source of inspiration for others as well as yourself.

Sun, Moon, Rising Sign Features

The Rising Sign is the mask shown to others, also the physical appearance.

Gemini people can experience two sides of things, and you tend to be flighty, engaging in many varied experiences to gain knowledge. Since nothing escapes your attention, you possess a vast fund of information based on your observations. You are witty and have a good sense of humor, and you are likely to be an excellent conversationalist. You make a good teacher. You can be nervous and high-strung, and may be mischievous. Unlike possessive Taurus, you tend toward liberty in relationship. You can be easily bored, but under the control of self-discipline you have tremendous intellectual and artistic possibilities.

Uranus in inconjunct (forming, 2.2 degrees) with Ascendant Leading planet of planetary pattern

The planetary energies do not flow smoothly, one or the other predominates; discrimination must be employed.

This aspect gives an eccentric and strong-willed individual. You love freedom from conventionality. You are inclined to be reckless, and periodically start over in your life, completely eliminating previous foundations. You are somewhat inclined to be nervousness and impatient, and tend to shy away from commitment and responsibility. You are an original and independent thinker with an active, scientific mind, futuristic in outlook, and you are capable of bringing new ideas into being. You can benefit from trying to control your energetic and visionary impulses in order to make these more concretely available in your own life, and in the life of society around you.

Moon in weak conjunction (forming, 9.6 degrees) with Ascendant

The strongest blend of the energies represented by these two planets.

The conjunction between the Moon and Ascendant gives a nurturing and protective personality. Like Cancer rising people you are subtle in your actions, rather than direct, and are likely to reflect the moods of those around you. Security and your home is important to you. You wear your heart on your sleeve, showing your emotions more readily than most. You also have a habit of moodiness, with your emotions frequently changing, or you could tend to be passive, preferring to immerse yourself in your feelings. You tend to collect the residue of past experience and hold onto it, as a coloration of present activities. This leads to instinctual rather than conscious action, and you can therefore benefit from shedding the light of conscious reason on your habitual patterns, and working toward greater focus on your true individual goals.

**Sun in semi-sextile
(forming, 2.6 degrees) with Moon**

The planetary energies attract each other, require effort, allow entry of new information.

This aspect gives a willful and strong-minded individual. There may be two sides to your approach to life, which do not always blend harmoniously: your will and your instinctual self. There is an emotional side to your nature that does not easily integrate with your sense of purpose or will power. You have a high energy level and good intelligence, and are very aware and alert, but you may feel a conflict between your public and private lives or the work you set out to accomplish versus more personal goals. You may have experienced your parents as inharmoniously related to each other and therefore may have a tendency toward argument and conflict in your own interpersonal relationships. There is a creative tension in your relationships, and also internally within your own personality, that may lead you to accomplish much in life, through the path of struggle rather than the path of ease and comfort.

**Sun in quintile
(fading, 2.3 degrees) with Mars**

The planetary energies are positively linked, subtle, and spiritual in dimension.

This aspect gives a self-confident, active, and decisive personality. You have great physical vitality and stamina, are out-going and like to exercise your mental and physical powers. You are usually happiest when engaged in some form of activity. Right and constructive action seems to come naturally to you. You are likely to be outspoken, and possess great abilities in combat as well as athletics.

**Moon in strong conjunction
(fading, 1.6 degrees) with Venus**

The strongest blend of the energies represented by these two planets.

This conjunction gives a loving, calm and steady personality. You have a cheerful and optimistic outlook, a refined emotional nature, and a consciousness of harmony. You tend to be a dreamer rather than a doer, but that shouldn't stand in your way, for you usually win people over easily. You love luxury and refinement, and it is important to you that you have nice things. You are likely to have extremely good taste in clothing and also in fitting out your home environment. You are artistic, sociable and attractive, and your loving disposition makes you popular with all who know you.

**Moon in strong trine
(fading, 2.5 degrees) with Saturn**

The planetary energies flow smoothly; the connection is easy and beneficial.

There is likely to be caution and reserve in your make-up, along with a good sense of the practicalities of life. This aspect gives a deepening and concentrating in the expression of your feelings. You may be extremely sensitive. You may have had a strict upbringing. The parental

figures, in your life, especially your mother, may have been experienced as rejecting or uncaring. You may experience some difficulties in your relationship to the feminine. You may also benefit from relationships with powerful feminine figures, symbolic of the powerful feelings that need fuller expression in your own nature. The lesson for you here is to understand and value the true roots of your being more fully and deeply, leading to a better sense of security and greater self-acceptance.

**Mercury in strong sextile
(fading, 0.2 degrees) with Mars**

The planetary energies flow together, open into new possibilities, new connections.

This aspect gives great mental energy with an aggressive attitude and a disputatious mind. You are never at a loss for an answer, and are able to succeed well in debate, being able to find the weakness in your opponent's argument. You are courageous and somewhat rash in speech, and have a strong will. You possess great talent for literary activities. Your excellent reasoning ability and action orientation work well together giving you tremendous analytic talent but not always the enthusiasm and drive to accomplish all that you may. You are always on the go, with a restless nature that is not easily satisfied.

**Mercury in strong trine
(forming, 1.5 degrees) with Midheaven**

The planetary energies flow smoothly; the connection is easy and beneficial.

This aspect gives a mentally active personality, who is very involved in mental pursuits. You are a good communicator, and a gifted thinker and organizer, and you can use these abilities in your professional life to great advantage. You also like variety, and may be quite eclectic and changeable in the pursuit of your goals.

**Mercury in inconjunct
(fading, 1.2 degrees) with Neptune**

The planetary energies do not flow smoothly, one or the other predominates; discrimination must be employed.

This aspect gives a clever and imaginative personality with subtle charm. You are visionary and poetic. You are likely to be an inspired thinker, and may excel in literary accomplishments, or the visual arts, but you may suffer from a lack of concentration and discipline. You may possess an over-active imagination, or appear to have your own private version of reality, or you may over-glamorize the object of your ideals. You need to learn discrimination, and to focus your creative potential, which is considerable, in order to become a channel for higher forms of thought to flow into your own life, and that of society around you.

**Mercury in inconjunct
(forming, 0.5 degrees) with Pluto**

The planetary energies do not flow smoothly, one or the other predominates; discrimination must be employed.

This aspect gives a sharp and penetrating mind, together with unusually clear and direct communication skills. You are likely to be quite interested in the occult, or other hidden and potentially taboo areas of thought. You can also be compulsively attached to your communication or the results of your mental process, so that there is a danger that you may feel yourself to be correct in what you say in spite of what others may think. You can be a great source of inspiration when you use your powers of insight and expression responsibly, enabling you to share your gift with humanity.

Mercury in semi-sextile (forming, 1.8 degrees) with Chiron

The planetary energies attract each other, require effort, allow entry of new information.

With this placement you may exhibit difficulties in communication or in how you express your ideas. There may be painful realizations in your background in connection with how you expressed yourself while a youngster. Stuttering is one possible manifestation of this type of influence. You probably experienced a wounding in your earliest exploration with other youngsters, possibly siblings. With this placement you are clever, yet there is blocking and frustration, until you begin to gain more conscious understanding of the ways in which you have been wounded, and also unconsciously wounded others. You also have a sharp and very intuitive mind. When you begin the process of transforming your painful memories into clear pictures with less emotion attached to them, you'll discover healing energy within your own psyche, and for your communication with others as well.

Other Natal Planets

N Node in Aquarius (7° Aqu 54'R) N Node in the Ninth House

Lunar North Node in the Ninth House (or sign). South Node in the third house or sign. This placement gives a thoughtful personality, with a focus on understanding moral or ethical belief systems. You may tend to scatter your energies, especially when young. In the past, or in past lifetimes, you concentrated your attention on superficial relationships of the everyday world. Now in this lifetime, your purpose seems to be to lift your attention toward a synthesis of higher consciousness. You will find great joy in pursuing the broader picture, whether in terms of educational perspectives or perhaps participation in cultures other than your own. Although curiosity regarding details and enjoyment of a multiplicity of points of view comes naturally to you, you must now learn to see the forest instead of the trees. Your focus now will become more and more the pursuit of higher knowledge and a deeper understanding of the motivations of others that was meant by the phrase "to understand all is to forgive all." A true philosophy of compassion is your goal.

Lunar North Node in Aquarius (or the eleventh house). South Node in the fifth house or sign. This placement gives an individual with a focus on friendships, group associations and social

goals. Although creativity on a personal level comes easily to you, and creating by means of including other people is perhaps more difficult, it is this more difficult task that you are drawn to attempt in this lifetime. In the past, or in previous lifetimes, you were proud of your individuality and of your individual contribution. You may have had an ego attachment to the products of your personal energy, and were not very interested in promoting social values or a group ideal. Now you find yourself envisioning possibilities far larger than just for yourself and your immediate family, so that the betterment of all of society becomes your focus. How can you fit into society around you in a way that benefits both the collective and your own idealistic agenda, moving forward? As you develop along this evolutionary path you find that you are ever more future-oriented and socially responsible, for in this way you find your true fulfillment.

Other Aspects

Venus in strong trine (fading, 0.9 degrees) with Saturn

The planetary energies flow smoothly; the connection is easy and beneficial.

This aspect gives a personality with a deepening and concentration in the area of interpersonal relationships. You are sensitive and have a strong sense of duty. You are likely to be loyal, cautious and reserved. You do not involve yourself quickly in relations with others, having a judicious sense of the proper timing of such activities. You also make an excellent businessperson, as you are possessed of good judgment diplomacy and tact, and are outer directed and self-reliant. You may feel a sense of isolation and loneliness in your life, or a tendency to substitute material rewards for love and caring. You could also have fears of rejection concerning romantic contacts. Yet you have also the opportunity to rise above these circumstances in concentrated effort over time. By being open to the path of relationship you can move toward inner integration and balance, toward relationship more fully explored and felt, based on a renewed self-confidence born of actual experience and mutual understanding.

Mars in strong square (fading, 1.0 degrees) with Neptune

The planetary energies conflict; internal and creative tensions bring rich rewards through effort over time.

This aspect gives an attractive personality with a strong psychic sensitivity and an inclination to mysticism and the arts. You possess a good understanding of and balance between the practical and the ideal. You have a personal magnetism that can strongly influence other people. You are able to create images in the minds of others. You can also seem to be different things to different people, so that your own understanding of who you really are can come into question. You may therefore have issues with self-deception, or with deception practiced upon you by other people. You can also be vague regarding your own motivation or fall into periods of discontent with life in the material plane. You can benefit from clarifying your aims, and learning to focus your power and become a channel for its higher use in your life and that of society around you.

**Mars in strong square
(forming, 2.0 degrees) with Chiron**

The planetary energies conflict; internal and creative tensions bring rich rewards through effort over time.

With this aspect you have issues around expressing anger, as well as exerting personal will versus knuckling under to authority. You have enormous energy and endurance at your disposal, although you may appear timid or unsure of yourself, since your power urge is likely to be repressed. It may be that you have had many painful experiences with violence, or potential violence, on the part of someone close to you, perhaps in your early childhood. As a result of these experiences, you may fear the power of your own anger, and seek to placate your opponent in situations where a direct confrontation seems to be brewing. This aspect is the hallmark of a "passive-aggressive" attitude, in which there is hidden aggression under-expressed, rather than any form of direct attack. In fact, it is said that those with this aspect are often very good at eliciting angry behavior from others, while their own hands stay clean. This is because those people you come into close contact with may become the projection point for your own hidden violent feelings that you are failing to directly express yourself. It is often the case that the powerful emotions associated with this aspect hover below the level of conscious awareness in your psyche. As you become more aware of these patterns, you will less and less need to act them out either suppressed with passivity, or with bluster. Another manifestation of this aspect, perhaps paradoxically, is the ability to lead and be willful, to not take "no for an answer", to be ruthless in accomplishing one's aims. The willful energy of Mars is given a creative boost by Chiron, both in terms of suffering and in a better-integrated personality, in terms of conquest. A still better level of integration produces the self-assured and powerful personality who does not depend on others either to express his or her own desires, nor to be crushed by them.

**Mars in strong sextile
(forming, 1.6 degrees) with Midheaven**

The planetary energies flow together, open into new possibilities, new connections.

You are likely to have an excellent ability to get things done, and also great drive to succeed at what you do. This aspect gives an assertive personality who desires success in public life. Career issues are very important for you, and you take pride in your many accomplishments. You are active in the pursuit of your goals with tremendous energy that needs that outlet.

**Jupiter in strong trine
(fading, 1.7 degrees) with Pluto**

The planetary energies flow smoothly; the connection is easy and beneficial.

This combination gives a positive and determined personality, with an ability to develop your powers to the fullest. You are inclined to transform yourself in the course of a lifetime. You have good judgment, and a constant sense of what is important to you. Your focus is excellent, and you make a good leader because of it. You work well in the area of interpersonal relationships, although you should beware of a tendency to dominate others. You may be interested in the

occult, or possess the powers of a healer or mystic. Your best use of your powers of focus and self-transformation are in the area of working with other people, for you have much to share with your fellow-man.

**Jupiter in strong conjunction
(fading, 0.4 degrees) with Chiron**

The strongest blend of the energies represented by these two planets.

With this placement you have a strong connection with spirituality and a great tendency to go your own way rather than subserve yourself to the spiritual ideals of human consciousness. You also may have been wounded in your spirituality in some way; perhaps in your early life you were forced into relationship with some sort of spiritual community to which you did not feel a deep bond. These two planetary energies, Jupiter and Chiron, both have a strong spiritual component, but operate in different ways. With Jupiter's optimism in support of Chiron's tendency for pain and suffering as a way toward the light, you are always able to rise above distressing circumstances, buoyed up by a strong streak of faith in the ultimate beneficence of Spirit. In fact, positive outlooks can become something of an obsession with you, so that friends and associates get tired of your unflagging optimism even though you are such a helpful companion. You have an abiding interest in matters of religion and philosophy, although this is likely to represent your own style of spiritual involvement rather than any standard form of spiritual institutions.

**Neptune in strong sextile
(forming, 1.7 degrees) with Pluto**

The planetary energies flow together, open into new possibilities, new connections.

This combination gives an individual with a personal involvement in the energies of the collective. This is a generational aspect, which many of your contemporaries will share with you. You have a subtle intuition and unusually clear insight into others. The influence of the unconscious is especially strong in you. You need to connect with your higher self in order to be happy. You function at your best in service to the world, helping to move it closer to a vision of spiritual union between all mankind.

**Pluto in strong trine
(forming, 1.3 degrees) with Chiron**

The planetary energies flow smoothly; the connection is easy and beneficial.

With this aspect you are likely to possess a somewhat compulsive nature. You have a tendency to plunge into the depths of despair as well as the heights of manic madness as a form of compensatory reaction to the over-indulgence of wallowing in the depths. There are great depths of passion within you, likely the result of painful experiences from early childhood. As long as these experiences remain unintegrated, they will cause a stir, both for yourself and for anyone you become close to. When you become more conscious of these patterns you have a great capacity to heal yourself and others. You have a keen intuition and great power to transform yourself and your personal relationships as you evolve.

**Pluto in strong square
(fading, 0.9 degrees) with Midheaven**

The planetary energies conflict; internal and creative tensions bring rich rewards through effort over time.

This combination gives a forceful personality with a strong and difficult focus on issues of authority, power and control. There may in fact be a compulsion for control manifesting in problems with interpersonal relations or in rebellious attitudes toward established authority, or perhaps in the charismatic personal magnetism of the born leader. You tend to seek to be in a position of authority. There are however likely to be problems inherent in maintaining a position of authority, once achieved. What is needed is a reevaluation and transformation of the urge for power and control, based on a deeper understanding of personal power and a more conscious and socially responsible use of it.

**Mars in square
(forming, 2.4 degrees) with Jupiter**

The planetary energies conflict; internal and creative tensions bring rich rewards through effort over time.

This aspect gives a personality with issues of self-esteem. There is a feeling of expansiveness about you, and abundant energy, but you may bring too much egotism to your encounters with others, especially if there are other challenging aspects to Mars. You have an optimistic nature, and you may therefore have a tendency to push it and take chances or to gamble. You are independent, restless and impulsive, and perhaps need to beware of rash decisions. It is also quite possible that you will seek a literary or artistic outlet for your abundant and restless energy.

**Mars in inconjunct
(forming, 0.7 degrees) with Pluto**

The planetary energies do not flow smoothly, one or the other predominates; discrimination must be employed.

This aspect gives a personality with a tremendous drive for power and transformation of self. You are strong-willed and you have enormous energy and endurance at your disposal. You may appear timid or unsure of yourself, since the power urge is commonly repressed, but then there is the potential for sudden bursts of anger due to the repressed emotion finally exploding to the surface. The challenge is movement away from feelings of insecurity and resulting separateness and loneliness, toward a better acceptance of other's needs and opinions in order to generate wholeness, forgiveness towards self and others, and a new and better sense of self-worth.

**Jupiter in opposition
(fading, 3.4 degrees) with Neptune**

The planetary energies are polarized; outer events stimulate their interaction; integration is the challenge.

This aspect gives an imaginative and unassuming personality. You are good and kind, considerate of others, and are friendly and easy-going. You need to feel an emotional sympathy in order for your work to be satisfying to you. You tend to work behind the scenes, and do not seek personal glorification from your actions, but are content to do what you do because it is helpful to others. You are capable of great belief in the unknown and unproven, and are inclined to the mystical, seeing life in terms of visionary and poetic feelings, rather than in practical terms. You may be even too much inclined to trust your imagination, which can cloud your powers of judgment. You benefit from attempting a more practical and reality-based view of life.

**Jupiter in inconjunct
(fading, 0.8 degrees) with Midheaven**

The planetary energies do not flow smoothly, one or the other predominates; discrimination must be employed.

This aspect gives a positive and optimistic personality. You are lucky and are likely to be successful at whatever you strive for. You have an expansive attitude toward new projects, so that there can be too much growth potential for you to handle. You need to get a reality check from time to time. You have good spirits and are able to see the big picture, so that others find you an inspiration to be around, but you may have to beware of too much complacency and self-satisfaction. You benefit from cultivating humility in your dealings with other people.

**Neptune in opposition
(forming, 3.0 degrees) with Chiron**

The planetary energies are polarized; outer events stimulate their interaction; integration is the challenge.

With this combination of planetary energies in your chart, you may have gone to the depths and back again in your life. You have a particularly strong access to the world of dreams and inner fantasy, which may serve as an escape valve for you. You may also be extremely sensitive to the psyches of others, may vicariously experience their pain. Something keeps you out of touch with consensus reality, but you also are not comfortable with this role. It is as if you stand on the other side of a glass door from the rest of society, through which you alternately gaze longingly and then lose interest and wander away into your own fantasy. You are capable of tremendous spiritual powers once you have begun to work through these difficulties and establish a better sense of where you stand vis a vis the remainder of society. You may exhibit great poetic or musical talent or the empathy of a born healer. Having come through a painful examination of your own psyche you are able to see more clearly and compassionately into the minds of others also.

**Chiron in inconjunct
(fading, 0.4 degrees) with Midheaven**

The planetary energies do not flow smoothly, one or the other predominates; discrimination must be employed.

With this aspect of Chiron and your Midheaven, you likely have issues around exerting personal will versus knuckling under to authority. You have enormous energy and endurance at your disposal, although you may appear timid or unsure of yourself, since your power urge is likely to be repressed. It may be that you have had many painful experiences with authority. As a result of these experiences, you may fear the expression of your own personal power, and alternate between complying with the standards of society around you, or rebelling against them. You may avoid situations where a direct confrontation seems to be brewing. You also may feel more empowered in helping others than in getting your own act together, and this aspect can be the sign of someone with a career in the helping professions, perhaps involved with new age healing. It is often the case that the powerful emotions associated with this aspect hover below the level of conscious awareness in your psyche. As you become more aware of these patterns, you will less and less need to act them out either suppressed with passivity, or with bluster. Another manifestation of this aspect, perhaps paradoxically, is the ability to lead and be willful, to not take "no for an answer", to be ruthless in accomplishing one's aims. A better level of integration produces a newly self-assured personality whereby you do not depend on others either to fully express your own desires, nor to be swayed by theirs. When you have integrated the walled-off places in your psyche that inhibit action on the part of your whole entire self, you are available to yourself in situations of leadership, as well as in truly helping other people.

**Sun in weak opposition
(forming, 9.1 degrees) with Uranus**

The planetary energies are polarized; outer events stimulate their interaction; integration is the challenge.

This aspect gives an eccentric and strong-willed individual. You can be determined to get your own way, and love freedom from conventionality. You are inclined to be reckless, and may periodically start over in your life, completely eliminating previous foundations. You are likely to rebel against the norm, or conflict with others in this area. Because you are unpredictable at times, it can be hard for others to be comfortable with you. You are an original and independent thinker with an active, scientific mind, futuristic in outlook, and are capable of bringing new ideas into being. You are also inclined to be nervous and impatient, and shy away from commitment and responsibility. You can benefit from striving to control your energetic and visionary impulses in order to make these more concretely available in your own life, and in the life of society around you.

**Moon in weak opposition
(fading, 11.0 degrees) with Pluto**

The planetary energies are polarized; outer events stimulate their interaction; integration is the challenge.

This aspect gives a moody and introspective personality with a strong desire for emotional security. You are likely to be very sensitive and emotionally intense, with a tendency to become completely absorbed in interpersonal relationships. You are also an extremely forceful

individual, with the urge to transform yourself and your surroundings. When you have a goal in mind, nothing will stand in your way. Your need for security may manifest as an almost compulsive desire for a safe and secure home life, or a home environment which can be completely controlled, possibly even through dictatorial behavior. You have an unusually clear insight into the emotional depths of other people, which may border on an actual psychic attunement with their states of being. You also have the urge to break through the limitations of the parental influence you experienced as a child. You may have experienced controlling behavior on the part of one or both parents, especially your mother, and you may find yourself still involved in the battle for your own autonomy many years later. These struggles can be worked through in your life, beginning with a deeper understanding of what it is you truly need on an emotional level. Your challenge is to transform your sense of insecurity, by coming to terms with your survival issues based on a better insight into your own hidden motivations.

**Jupiter in weak opposition
(forming, 6.8 degrees) with Saturn**

The planetary energies are polarized; outer events stimulate their interaction; integration is the challenge.

This aspect gives a serious and conscientious personality but one that may be impractical. You are motivated to achieve success, but you are likely to run into some self-imposed barriers on the road to achieving it. There is a gap between your ambition and what you actually accomplish. You tend not to be content with the extent of your responsibilities until you have taken on too much, leading to the problem of actually fulfilling these obligations. You also may have too limited and narrow a view of your potential, so that you aim too low, and garner less than you are capable of. This could lead to problems with your material well-being, or with being too cautious and thrifty for your own good. You can benefit from cultivating a more giving and generous attitude, greater contentment with your present resources, and trying for a better balance between dreams and reality.

**Saturn in weak opposition
(forming, 7.2 degrees) with Chiron**

The planetary energies are polarized; outer events stimulate their interaction; integration is the challenge.

With this aspect, you can be rigid or stuck in situations; unbending. You have an attachment and also great difficulty with authority; for example you may endlessly achieve positions of authority and then have second thoughts about it. You likely suffered through potentially painful experiences as a child, when you were forced to submit to an arbitrary authority or limitation of some kind. Perhaps you had the experience of a bad father. The relationship with your father was damaged in some way; perhaps it was a relationship you had to get away from, either from his overbearing nature or from his neediness and lack of presence. In other words, your father figure was either too strict, or not present and therefore not strict enough. With this aspect, you need to make your own form of personal authority, independent from the parental influences or that of society. This gives you the potential for great strength and leadership, if you can integrate your powerful and perhaps repressed emotions regarding your concept of authority. In this way you can lead others into the New Age. You may be one to re-work the structure of

society itself in some way, or to become an advisor or even a leader in the social sphere; perhaps in connection with organizations devoted to new age healing techniques. You may also feel the need to redeem yourself or your family; to restructure the constructs that you have internalized from your heritage, perhaps even your entire relationship with the physical realm.

Uranus in weak conjunction (forming, 5.6 degrees) with Neptune

The strongest blend of the energies represented by these two planets.

This conjunction gives a future oriented and idealistic individual, very aware of collective energies. This is a generational aspect, which many of your contemporaries will share with you. You may feel a pull to the service of humanity at large. You are likely to be interested in mysticism and the occult. You may also be inclined to nervousness (especially if the conjunction makes close aspects to the personal planets in your chart). You may feel some sense of confinement or restriction in the freedom to be who you want to be. Social ideals will strongly affect the expression of your individuality.
